

# Cara Connect

## Your advocates, coordinators and partners

At Cara Connect, our role is simple - we're here to make sure you have the right support in place to live life your way.

We take the time to get to know you, your support team, and what's important to you ensuring you receive the right support to live independently and achieve your goals.

One of the most important things we do is keep you connected, with regular check ins with you, your guardians, and support coordinators, we help make sure your funding and services match your needs. This includes working closely with our internal service teams to make sure the support we provide is just right for you.

We also help with the NDIS process, whether that's gathering information for a tailored plan review, applying for a Change of Situation, or updating assessments and plans. We're here to help things run as smoothly as possible.

At the heart of it all, we're here for you - to listen, to support, and to help you access what you need to live as independently as possible.

At Cara Connect, we are more than just a team - we are your advocates, coordinators, and partners. Our goal is to ensure you receive the support you deserve, empowering you to live the life you choose.
