Meet Georgia
Support Worker

As a fourth-year student in Disability and Developmental Education, combining her academic knowledge and 4 years delivering support, Georgia is proud to be a loyal Cara employee.

Her skills and hands-on experience empowers her to deliver client-centred support, ensuring high-quality outcomes for the individuals and families Georgia has the pleasure of working with.

One of her greatest joys is witnessing the growth and achievements of the individuals she supports. Recently, Georgia had the privilege of supporting a client during the milestone of his brother's wedding, being personally invited to share in the family's celebration. Another recent highlight for Georgia has been assisting clients and families with evidence-based strategies, documentation and support for transitioning

to Supported Independent Living (SIL) from Respite.

"Providing support through this significant and empowering journey has been rewarding and a testament to the importance of well-planned, person-centred approaches, with the fantastic team I have the pleasure of working alongside.

It has been an honour to see my long-term clients flourish into adulthood, embracing their potential and thriving, with the goals of transitioning into independent living environments. I am deeply committed to supporting individuals with energy, expertise, positivity and a focus on meaningful outcomes that will enhance their long-term independence and quality of life."

Cara is always on the hunt for dedicated and compassionate Support Workers. Visit www.cara.org.au/careers to find out more.

We want to hear from you!

We're always open to feedback from our valued clients and families. You can get in touch with us on:
